

And God said, "Let there be light," and there was light.

*Specifically T8 Fluorescent Energy Efficient Long Life light*

Just Kidding... But Hey...  
The Church is having a work day  
on **Saturday July 31st from 10am to 2pm.**

We will be replacing the old light fixtures in the building with brand new energy efficient lights.

We are in need of people that can handle the rewiring of the light fixtures and people to assist those rewiring.

We are all in need of people to be on the recycle crew to disassemble the old lights for recycling.

Many hands make light work.

Please let Michael Liskey know if you can be there.
